EXPERIENCE

Even Financial — Software Engineer

New York, NY | Nov. 2021 - Dec. 2022

Loans Vertical

- Took ownership of Even's feature toggling management solution using [Unleash](#).
- Provided documentation on releasing features and how to set up the Unleash server locally.
- Refactored and designed components with the flexibility to manage feature cohorts.

Core Network Frontend

- Mentored coworkers on test driven development and how to approach testing.
- Contributed to building a reusable Form Component driven by [React Json Schema Form](#).
- Drove grooming sessions to ensure that well documented tickets were ready for development.

NomadHealth — Senior Software Engineer

New York, NY | Jul. 2019 - Oct. 2021

Travel Nurse Application

- Revamped the frontend nurse experience that increased profile ready nurses by 15% and application to submission conversion by 16%.
- Migrated a server side Jinja rendered application to a [Next.js](#) client side driven application.

Dom & Tom Inc — Technical Lead

New York, NY | Aug. 2018 - Jul. 2019

- Created a React Admin scaffold to connect a RESTful API with a GraphQL Server.
- Wrote automation tests for a React Native app using Appium. Increased test coverage by 10%.

Momentive (SurveyMonkey) — Software Engineer

San Mateo, CA | Jan. 2015 - Mar. 2018

Survey Service

- Maintained a highly traffic application receiving around 82,000 requests per minute.
- Ensured that assets were restorable and hard deleted during a survey life cycle on S3 servers.

Multilingual Surveys

- Supported multiple languages on a survey to unlock incremental corporate sales.
